# Disinfectant Cleaner

## Cleaner – Better Cleaning Efficiency

**RESULT: Added Confidence prior to Disinfecting**

VHP 5 Ready to Use

84.6% Effective

Neutral Quats 1:250

12.6% Effective

6% Bleach 1:20

11.3% Effective

Can/CGSB-2.16 in conjunction with 2.11.

## Safer – Safer for Users and Occupants

**RESULT: Healthier**

- VOC'S below detection limits
- Non-Corrosive to skin
- Non-Irritating to eyes
- Non-Toxic

## Responsible – Reduced Environmental Load

**RESULT: Sustainability**

- Hydrogen Peroxide leaves no active residual that may contribute to the development of resistant strains of microorganisms
- Hydrogen Peroxide biodegrades to water and oxygen in less than 1 minute post use when discharged into a draining system
- Does not contain NPE's (nonylphenol ethoxylates)

<b>AHP 5 RTU</b>

<b>AHP Concentrate Citrus Fragrance</b>		
53806	4 x 4 Litre	

To disinfect hard environmental surfaces such as table tops, floors, food processing equipment and non-critical instruments such as bed pans, stethoscopes etc.

### DIRECTIONS FOR DISINFECTION

#### DISINFECTION OF NON-CRITICAL ITEMS, EQUIPMENT & HARD SURFACES

coming in contact with intact skin such as hemodialysis machines, stethoscopes, tabletops etc. Apply to surface with cloth or disposable wipe. Ensure surface remains wet for at least 5 minutes at 20°C. Wipe dry or rinse. Special Instructions for Cleaning and Decontamination Against HIV (human immunodeficiency virus) on objects and surfaces soiled with blood/body fluids. This product is intended for use against HIV only in those settings where the virus would be expected to be encountered, such as settings where contamination by blood or body fluids is likely. Cleaning & Disinfecting Surfaces of Blood and Body Fluids that May Contain HIV: Gloves should be worn. Remove excess blood and fluid with absorbent materials. Clean contaminated area: Apply to surface, soak 30 seconds, wipe dry. Disinfect contaminated area: Apply to surface, allow to remain wet for 5 minutes. Wipe surface dry or rinse.

Personal Protection: Disposable latex or vinyl gloves, gowns, face masks, or eye coverings as appropriate, must be worn during all cleaning of body fluids, blood and decontamination procedures. Disposal of Infectious Material: Products contaminated with blood or body fluids should be disposed of according to Federal, Provincial, and local regulations for infectious waste disposal.

#### BROAD-SPECTRUM SANITIZING ON ENVIRONMENTAL SURFACES:

Apply AHP 5 RTU to surface, allow to remain wet for 30 seconds. Wipe dry. No rinse required. Food contact surfaces require rinsing with potable water.

Germicidal activity of AHP 5 RTU was determined in accordance with the Canadian General Standards Board's standard CAN/CGSB-2.161-97

**Also available  
in economical  
7% concentrated  
formula.**
