

A ANTISEPTICA

Research has shown over the last century that hands are the primary way in which all infections are spread. Proper hand disinfection procedures and products must be used in order to reduce the chances of transmitting communicable diseases in any health care setting. The most effective preparations are liquid alcoholic solutions with a minimum of 70% isopropanol. Remington Medical introduced liquid antiseptics to the Canadian market from Germany over 10 years ago and currently offers three highly effective products; Manorapid®, Manorapid® Synergy and Dermotan to clean and disinfect your hands between patients, or for anyone entering or leaving your facility.

MANORAPID®

Manorapid® is a highly effective poly alcohol formula that when rubbed on the hands for 20 to 30 seconds kills bacteria and fungi at a log reduction rate of 5.33. This is more than 1000 times more effective than some gel based products that are being used in hospitals today. The special lanolin-derivative emollient ensures your skin stays soft and smooth after each application. Manorapid® is used in 25 countries and has been on the market for more than 30 years. It has been tested using EN 1500 guidelines in Europe. If you want a serious product for use in

your clinic, this is the formula for all day use to protect your staff and patients from germ causing diseases.

- AS-MAN-1000P** 1 Litre bottle with pump
- AS-MAN-1000P-CS** 1 Litre bottle with pump, case of 10

- AS-MAN-120** 120 ml bottle
- AS-MAN-120-CS** 120 ml bottle, case of 24

MANORAPID® SYNERGY

Manorapid® Synergy is an alcohol based hand antiseptic solution with four active ingredients that work synergistically to be effective in rapidly destroying a wide range of hand-transmitted bacteria, fungi and viruses. Manorapid® Synergy is the only product on the Canadian market at this time that is approved for destroying un-coated and coated viruses including SARS, Hepatitis A and Norovirus. If you are concerned about the transmission of all viruses, bacteria and fungi this is the product to use.

- AS-SYNPRO-1000P** 1 Litre bottle with pump
- AS-SYNPRO-1000P-CS** 1 Litre bottle with pump, case of 10

DERMOTAN

Dermotan is an imported soap is made with caring substances found in baby shampoo and cosmetic products making it very gentle on the skin. The smallest amount of soap will effectively clean the dirtiest hands saving money in the process. Treat yourself to a litre of Dermotan at every sink and make it part of your daily hand washing routine. You will want to use it over and over again.

- AS-DERMOTAN-1000P** 1 Litre bottle with pump
- AS-DERMOTAN-1000-CS** 1 Litre bottle with pump, case of 10

WIRE BASKET

Wire basket for wall mounting 1L bottles of Manorapid®, Manorapid® Synergy or Dermotan.

AS-BASKET

DISPENSERS

Manual dispenser for Manorapid® or Manorapid Synergy®. Dispenses the right amount of product. For use with UX10 bottles.
